ABOUT OPTIMEIZE WEIGHT MANAGEMENT:

Optimize aims to develop workplaces that operate with a duty of care to the employees in its care: evidence-based investments into health and performance, staff wellness and effective time management strategies are at the forefront of our approach, our vision, our mission and our philosophy.

Optimize operates from a research-based performance model to support employees to reach personal goals and company KPI's. We facilitate this through company specific performance strategies communicated and implemented into the workplace

OUR PERFORMANCE MODEL

1. SELF-AWARENESS: Develop your why. Gain clarity over what you would like to improve and why this would add value to your company and your staff.

2. SUPPORT: Identify what you need to do to achieve your why and how to effectively implement and measure the value of the intervention. The approach can be (i) mirrored on what other successful companies are doing and (ii) personal experience of what works in your industry and workplaces context.

3. STRUCTURE: Understand how to seamlessly fit this new approach into your workplace environment. Identify the time, personnel and resources needed.

4. STRATEGY: Put measures in place to track progression and remain on track. Put KPI's in place for each member and identify the approach based on the context of the companies available resources.

5. SOLUTION: The process drives the outcome. Develop, implement, evaluate and remain consistent with the SYSTEM.

ABOUT IAN BYRNE (THE COACH):

Having spent time as a PE & science teacher, a university lecturer, a life & executive coach and a fitness trainer I have immersed myself in health and performance education. Having worked with thousands of students, athletes and parents throughout the process I pride myself on understanding the principles and processes behind health, human behaviour, motivation and getting results. I formulate strategies to increase employee wellness, performance and company margins.

With a solution focused mind-set I aim to help companies address current barriers to performance and enhancing the metrics associated with this. You provide the problem and I will help you resolve it with a solution that makes financial sense. The services I deliver guarantee results and set companies up for enhanced staff performance.
